## DETAILED ACTION

### ***Response to Arguments***

1. Applicant's arguments filed 06/17/04 have been fully considered but they are not persuasive.

The Applicant's stated that, "*Youssefmir et al.* does not disclose determining one or more signatures of one or more interferers or modifying the antenna processing strategy by incorporating the determined one or more signatures of the one or more interferers with the received signal data to reduce one or both of antenna transit signal strength in, and sensitivity of the antenna to signal from, one or more interferers".

*Youssefmir et al.* disclose such determining of one or more signatures (col. 6/ln. 43-56, col. 25/ln. 35-col. 26/ln. 21). *Youssefmir et al.* further disclose the method of modifying the antenna processing strategy by incorporating the determined one or more signatures of the interferers with the received signal data to reduce one or both of antenna transit signal strength or sensitivity of the antenna to signal (col. 18/ln. 19-col. 19/ln. 9). Therefore, the rejection is proper.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 56-114 are rejected under 35 U.S.C. 102(e) as being anticipated by *Youssefmir et al.* (6,141,567).

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

As per claims 56, 80, and 104, *Youssefmir et al.* disclosed a method to compute an antenna processing strategy for a remote user based at least in part on a received signal data, determining one or more signatures of one or more interferers, and modifying the antenna processing strategy by incorporating signature data relating to one or more interferers with the received data to reduce one or both antenna transmit signal strength in, and sensitivity of the antenna to signals from one or more interferers (abstract, col. 8/ln. 6-16, col. 13/ln. 12-54, col. 18/ln. 11-col. 22/ln. 27).

As per claims 57, 81, and 105, *Youssefmir et al.* disclosed the limitation of claims 57, 81, and 105 (abstract, col. 18/ln. 11-col. 22/ln. 27).

As per claims 58, 82, and 107, *Youssefmir et al.* disclosed the limitation of claims 58, 82, and 107 (col. 18/ln. 11-col. 22/ln. 27).
